C.M. SYSTEM ASSOCIATE

KUCHING, SARAWAK

Established in 2003, C.M. System Associate is based in Kuching Sarawak. However, we have clients that lined the nation. The company was initiated with one aim in mind, which is to relief the client's of their technological woes. We provide design, supply, installation and support services for business computers and networks, including wide area networks, manpower outsourcing to small and medium sized businesses nationwide.

INTEGRATED DESIGN

We aim to streamline the operations of your company so that more time and effort is concentrated on your core business and not to worry about the challenges in the technological world. Staffing and training of your employees are also factors that your companies will need to consider. However, our services are aim to ease you of that burden.

With the proliferation of computer system and software manufacturers and the complications of maintaining different systems within a single network, it is important to have a support partner who understands the needs of the small to medium-sized business.

C.M. System Associate understands that if your system is down, it can be costly to your business in terms of sales, operations, and customer service. We work hard to minimize these costly disruptions and have your mission critical systems back up and running in the quickest possible time. Our services are tailored specifically to your maintenance and support needs
